Mutual Life Insurance Co.

OF NEW YORK.

ACCUMULATION OVER $20,000,000.

Policies Issued on Single Life to Amount of $20,000!

RATES AS LOW AS THE SMALL COMPANIES.

Annual Dividends worth more than any Insurance Company known to the writer, and can be used as Cash in Payments of Annual Premiums,

Life, Ten Annual Endowments, and all kinds of Life Policies and Annuities Granted.

This Company is the oldest Mutual Life Insurance Company in this country, having commenced business in 1843. A great Company like this, increasing its line over $50,000,000 annually, is the object of admiration to many, and of envy to not a few. But though envy has tried to reach, and malice has done her worst to injure, the **Mutual Life**, the mark is too high for either, and its officers may congratulate themselves upon accomplishing results which formerly would have been thought fabulous.

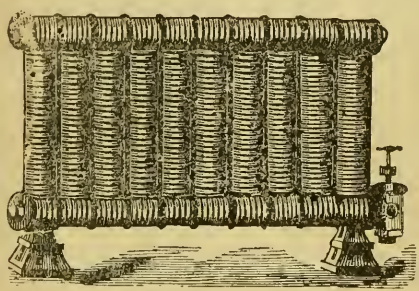
ENGINEERS

AND MANUFACTURERS OF

Steam Heating Apparatus,



FOR HEATING

PUBLIC AND PRIVATE BUILDINGS.

We claim to have advantages over most houses for heating Public Institutions, by using the Wrought Iron Boiler and Vertical Coils, both for direct and indirect Radiation. We also claim to have Heated and Ventilated the largest buildings in the State of Maryland to the entire satisfaction of all concerned, the "Baltimore Bayview Asylum." We refer to this job as one of the best heated buildings in the country. The total space heated in the above building is nearly three millions cubic feet. All the heating, the cooking, the washing, the drying, &c., is accomplished with but two Boilers at one time.

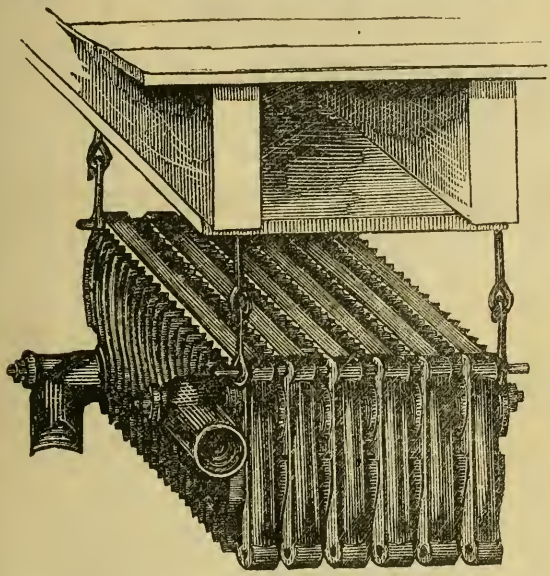
IMPROVED RADIATOR,

FOR

STEAM HEATING



END VIEW.

This Radiator (illustrated on this page, showing side and end view) combines greater strength, with LARGER HEATING SURFACE *than any other Cast Iron Radiator now in use.*

Its simplicity of construction, all the joints being turned and fitted before leaving our Factory, makes it invaluable to the purchaser, as any ordinary workman can put it together.

Sold Wholesale and Retail.

Baltimore Female College,

N. C. BROOKS, LL. D., President.

The College is situated on St. Paul street, in a retired yet pleasant part of the city near the centre, and has cost in the aggregate for its grounds, buildings, apparatus, furniture and appointments, about $50,000. The buildings have been arranged with great judgment, and have study and recitation rooms separate, with every convenience for boarding and day pupils. The accommodations are ample for two hundred and fifty pupils, and one hundred boarders. There is a fine library of over 3,000 volumes, to which the pupils have access, comprising works on antiquities, ancient and modern history, biography, science, voyages, travels, criticism, poetry, the fine arts, and general literature. There is also a valuable chemical and philosophical apparatus, cabinets of minerals, gems, coins and medals, with models, globes, maps and other ample means of illustration.

At the last session of the Legislature of Maryland the College received an annual endowment of $2,200 for the establishment of free scholarships, upon which one pupil from each County in the State and from the City of Baltimore, without charge for tuition or books is instructed in all the branches taught in the College.

RELIEF FOR THE AFFLICTED.

MRS. M. COX'S

INDIAN

Vegetable Decoction,

May fairly claim to be ranked as among the

GREATEST MEDICAL DISCOVERIES OF THE AGE.

There is not an instance known, since its introduction to the public, in which it has not realized all that has been claimed for it by the proprietor. The amount of suffering it has relieved is incalculable, and the many remarkable cures it has performed when all other remedies have failed, are among the most wonderful of the day. In

Neuralgic and Nervous Affections, Liver Complaints, Rheumatism, Debility,

And in fact in all DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD. It goes right to the seat of the disease, and, by cleansing the system of all impurities, restores it to its original vigor. All who are suffering from disease should give it a trial, to be satisfied of its excellent qualities as a PURIFIER OF THE BLOOD!

For sale by all respectable Druggists, and by the proprietor.

SHEET IRON, GALVANIZED IRON, COPPER, TIN, PAINT, &c.

Applied to Roofs,

RAILROAD DEPOTS, CARS, MACHINE SHOPS, BLACKSMITH AND CARPENTER SHOPS, ENGINE HOUSES, STEAMBOATS, STEEPLES, &c.

SHEET IRON ROOFING is best adapted for Rail Road Depots, Machine, Blacksmith and Carpenter Shops, Engine Houses, &c., where there is danger of sparks from passing Locomotives.

GALVANIZED SHEET IRON does not require any sheathing of wood, the Sheets being applied from rafter to rafter thus making the building, so covered, almost fire proof.

TIN ROOFING will be found best for Hotels, Dwellings, Offices or other buildings not exposed to sparks from locomotives, steamboats, &c.

WHITE LEAD applied to the joints and crevices of Sheet Iron Roofing preserves the Roofing many years longer, as corrosion first takes place at these points.

We are prepared to apply our Paint, made of the best materials, to all work requiriug it, upon the most reasonable terms.

Work done by us at Mount Clare Station, of the Baltimore and Ohio Railroad, some twenty-five years ago is sound and perfect to this day.

We guarantee all work done by us to be of the best material and applied in the most workman-like manner.

We would refer to the Master of Road Baltimore and Ohio Railroad, and to the Master of Road Northern Central Railway.

PREFACE.

After a delay far exceeding my expectation, arising from various causes—among them, the remarkable increase of names properly to be inserted for reference; an increase of 18,928 names beyond 54,552, the number in my last issue of 1865-6, it affords me gratification to present this edition, which will be found as accurate as the ever-shifting nature of its elements admit.

The immediate predecessor of this volume embraced 54,552 names; this contains 73,480 names—not inclusive of the business directory,—and unlike the *attempt* at a Directory recently published in this City, and urged by every device and appliance upon the community, unsuccessfully however, the statements of name, residence, business and place of business will be found herein scrupulously accurate and reliable—affording a guide, whereto all, both citizens and strangers, may resort in well founded assurance of obtaining correct information—as to the living: unlike my pretentious competitor, I have not assigned to the *dead*, their former places of abode, of years past, as their present whereabout.

The employees of the Post Office and other public institutions in our midst, after groping laboriously and in vain, for light throughout the pages of the fictitious work referred to—have felt constrained to consign it, as a humbug, a mis-leader, a blind guide and a vexation, to the receptacle of waste paper: and to recall to daily use my edition of 1865-66, as a far more reliable source of information. They especially will greet the issue of this volume with a cordial welcome, and their approval will afford the surest evidence of its intrinsic worth.

The increase of the colored population in our midst—an increase of 3,400 on the population of '65-66—which was 5480, exhibits the extent to which their influx into our city has reached: for, upon no estimate of natural and ordinary increase can this remarkable addition be accounted for. When it is considered that about one-fourth only of the population properly is embraced in a Directory, the entire addition of this class will amount to 13,600, and their whole number to 35,572. Whether Houston's Directory wholly ignored this dark element of our numbers, or restricted its omissions to the white race, or made a mongrel combination of oversights, I leave to those who may be inclined to ascertain the causes of his failure to give the 10,210 names not to be found in his Directory, but embraced herein.

Our whole number of inhabitants of both races, on the estimate of twenty-five per cent. only being subjects for a Directory, amounts to 294,000, which enumeration will be found probably more accurate than would be a census, taken on a plan less searching and systematic than that necessarily adopted by any *conscientious* publisher of a Directory—and which at great cost and labor has been carried out in the compilation of this work.

As usual in my former editions a full, complete and accurate Business Directory, is embodied in this volume, showing a corresponding increase in this department, and the catalogue and location of streets now given, afford to the inquirer the means of information which our present defective mode of numbering houses may have failed to supply—and of that shamefully defective mode of enumeration, hourly evidence has accumulated during the unwearied search indispensable for the publication of this Directory.

To the Appendix as a compend of general information as to Government, State and City officers, Banks, Insurance Corporations, Railroad and Steamboat Companies and countless other heads—a slight refereuce will show its value—but can furnish to the casual observer but little means of appreciating how much of time and labor have been expended in its accurate completion.

The Advertising department has been carefully and as is ventured to be assumed, well prepared—and in many instances the business of the advertiser has been greatly enlarged by this cheap mode of eliciting the attention, not of citizens only but of the crowd of strangers resorting hither—to the advantages offered in these advertisements; the constant presence of this work at all hotels, public offices, counting rooms, banks, insurance offices, work-shops, &c., ever affording ready access to its pages—makes this department invaluable to the portions of our community and visitors, who deem time and facility of search matters of moment.

Attention is called to the list found on the back of the title page—of Corrections, Additions, Alterations, &c., which have become necessary during the course of publication.

For the courtesy uniformly extended to our canvassers, grateful acknowledgment is made—all, by whom each of such acts of consideration was exhibited, may rest assured of due appreciation on the part of its objects.

The public's obd't serv't,

THE PUBLISHER.

ROOFING SLATE.

We are prepared to furnish Roofing Slate of the best quality, of all sizes, in lots to suit purchasers.

WOOD TUBE.

This Tubing is made of White-Pine Scantling, 4 by 4, with $1\frac{1}{2}$ inch bore, in sections eight or ten feet long, with water-tight socket joints, and can be well laid by any common laborer. It is in many respects preferable to lead or iron pipes, being quite as durable, less likely to contaminate the water, and not more than one-third the cost. Nothing is better adapted for conducting water for Railroad, Mining and Farming purposes than this Tubing.

WOOD TUBE.

This Tubing is made of White-Pine Scantling, 4 by 4, with 1¼ inch bore, in sections eight or ten feet long, with water-tight socket joints, and can be well laid by any common laborer. It is in many respects preferable to lead or iron pipes, being quite as durable, less likely to contaminate the water, and not more than one-third the cost. Nothing is better adapted for conducting water for Railroad, Mining and Farming purposes than this Tubing.

Awning Posts, Hitching Posts, Columns for Galleries, Porches, &c., of Iron and Wood.

Wooden Mantels for Fire-Places, from 2 feet 6 to 3 feet wide by 2 feet 6 to 2 feet 10 high, out of 1 inch Lumber, Plain .... $8.50 each.

WOODS'
STREET DIRECTORY,

INCLUDING

STREETS, AVENUES, LANES, ALLEYS, COURTS, WHARVES, &C.

IN THE

CITY OF BALTIMORE.

EXPLANATION.—If you wish to find the location of any house. for instance, 71 N. CHARLES-ST., on consulting the Street Directory, (see CHARLES N.) you will observe 55 is on the N. E. corner of Charles and Saratoga-sts., hence the desired No. 71 will be between Saratoga and Pleasant-sts., right hand. Or, if you are going up Charles-st. and wish to take a cross street so as to call, for example. at 103 Park-st., examine the numbers on the corner of Park-st., (see PARK, Street Directory,) and you will find 95 on the corner of Park and Centre, then by counting four houses you arrive at the desired No. 103, right hand.

Entered, according to Act of Congress, in the year one thousand, eight hundred and sixty-three, by John W. Woods, in the Clerk's office of the District Court of Maryland.
